Templates for commonly used spreadsheet tasks.

“Big Grid” = “more calculability”

Rows: 1,048,576

Columns: 16,384

Cell character

## Microsoft Office 2008 for Mac

### *Visual Basic Support Ending*

- Why is VBA support going away?
  - Office 2004 supports an older version of VBA
  - Moving VBA to Intel is a 3+ year project even if we bring over the old version
- What will my Mac users experience with Office 2008?
  - Scripts will not execute, but will not be removed or changed

# Microsoft Office 2008 for Mac

## *Programmability Options*

- AppleScript (and Automator)
- Resources
  - April issue of MacTech Magazine
  - AppleScript Dictionaries for Office
    - <http://www.microsoft.com/mac/resources/resources.aspx?pid=fordevelopers>
  - Apple's AppleScript Center
    - <http://www.apple.com/macosx/features/applescript/>
  - Automator actions in Office 2008
  - Additional white papers and guides will be posted to our website in the coming months
- Ongoing investigation of long-term x-plat solutions

# Messenger for Mac

## *What are the Improvements?*

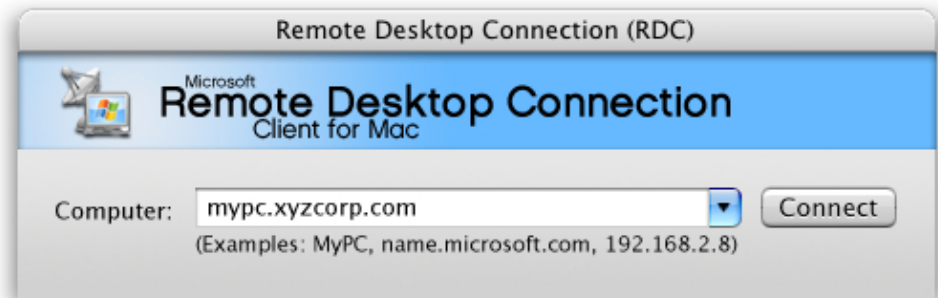

- Supports Live Communication Server (LCS) and Windows Live Messenger
- Messenger for Mac 6.0 features
  - Support for federation between service providers
  - Add a status message that your personal contacts can see
  - Search for conversation histories using Spotlight
  - Check the spelling in your instant messages
